Green Power

The ViewSonic PC mini 120 Intel Atom N270 processor and 945GSE chipset provide smooth operation and a swift response for your daily Internet, word processing and media output needs. Thanks to the low voltage, low heat and quiet design, you save on energy consumption, reduce your carbon footprint and help the environment.

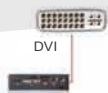

Networking genie

With RJ-45 10/100/1000 Base-T Ethernet and an IEEE 802.11n wireless module built-in, the ViewSonic PC mini 120 feels at home in any networking environment.

Digital performance

It is a everything-digital age, and the ViewSonic PC mini 120 is no exception. the all-digital DVI video output can take advantage of your digital monitor to display razor-sharp images with maximum gamut, clarity and display every subtle change on screen.

Advanced interfaces

USB 2.0
(480Mbps)

eSATA
(3.0Gbps)

The compact ViewSonic PC mini 120 comes with eSATA, an interface exclusive to high-end desktop PCs. The speed of eSATA can achieve 3Gbps, far faster than 480Mbps of USB 2.0. It's best for connecting external storages to move or backup large media data. A faster interface means less transmission time and greater performance.
